<https://youtu.be/9gnlF8vSI9A>

DAWN-TOWN

Our theme for the collection consists of the vitality of metropolitan from breaking dawn.

We look into our life that we unconsciously pass by, from the breaking down and the light blooming in the dark metropolitan.

The 22 F/W collection, which reimagines the contemporary silhouette with an urban streetwear touch, brings high-quality products with comfort-seeking silhouette and details to life through sustainable materials and processes. The collection uses fabric that comes from plastic bottles and obsolete clothing waste. Organic fabric is used for a comfortable fit, and performance fabric enhances movement.
